

Shreedhar Anand

SOFTWARE DEVELOPMENT ENGINEER — BACKEND SYSTEMS

P O R T F O L I O

MMXXVI

✳ About

I'm a Software Development Engineer at Urban Company, building backend systems that keep millions of bookings running every month. I work across distributed systems, full-stack web, and AI/ML to ship reliable, high-impact software.

✳ Education

Indian Institute of Information Technology Senapati, Manipur (IIITM)

B.Tech, Computer Science & Engineering — CGPA 8.01 · 2022 – 2026

SRVSM, Forbesganj

Intermediate (11–12), CBSE Board · 2020 – 2022

SRVSM, Forbesganj

Matriculation (10th), CBSE Board · 2018 – 2020

Convocation — IIITM Manipur

✳ Experience

Urban Company

Software Development Engineer I, Fulfilment Team

Jul 2026 – Present · Gurugram, India

Own cancellation, recovery, and reschedule flows across the Fulfilment platform.

- ◆ Built a same-slot recovery engine that secures a replacement professional before a repeat no-show booking is cancelled — saving 15% of would-be cancellations (1,000+ bookings in the first two weeks).
- ◆ Automated the reschedule and cancellation flow, closing a loophole that lifted fee enforcement from 0.6% to 8–17% (16×) and cut live-agent dependency from 93% to 10%.
- ◆ Built provider-accountability checks that flag high-risk cancellations before they occur, making penalty and refund decisions fairer and more accurate.
- ◆ Improved reliability and correctness across flows handling 2M cancellations/month through earlier recovery triggers, race-condition fixes, and safer cancellation guards.

Node.js

Microservices

Distributed Systems

Kafka

MongoDB

System Design

Urban Company

Software Development Engineer Intern, Fulfilment Team

Jan 2026 – Jul 2026 · Gurugram, India

Built cancellation-fee, recovery, and chatbot systems for the Fulfilment platform.

- ◆ Centralized cancellation-fee logic into a single service and migrated 4+ systems onto one source of truth governing ₹16 Cr of fee flow.
- ◆ Re-architected the provider-recovery pipeline, lifting recovery success from 33% to 42% and safeguarding 1.1M accountability decisions and 245K fee reversals.
- ◆ Built and scaled a conversational cancellation assistant, increasing self-serve resolution and reducing manual agent handling.
- ◆ Automated fee handling across booking types and added retries and resiliency to critical services, improving reliability for 2M cancellations/month.

✳ Experience (continued)

AltBridge

SDE Intern (Project Lead)

Oct 2025 – Dec 2025 · Singapore · Remote

Led the design and development of a core startup module.

- ◆ Architected backend workflows and implemented scalable APIs.
- ◆ Delivered an MVP end to end as project lead.

Leadership

Orbol Group

Full-Stack Developer Intern (MERN)

Jun 2025 – Aug 2025 · Remote

Full-stack MERN development for a competitive gaming platform.

- ◆ Built user and admin panels with Clerk authentication and PhonePe payments.
- ◆ Implemented real-time leaderboards and tournament data flows.
- ◆ Integrated Riot Games and FACEIT APIs for live player stats.

C-DAC (Centre for Development of Advanced Computing)

Software Development Intern, Performance Engineering

Jul 2024 – Sept 2024 · Noida, India

Performance engineering in the systems team.

- ◆ Built 5 Python performance-analysis tools for profiling and benchmarking.
- ◆ Optimized an Nginx–Apache proxy layer: +30% throughput, –25% resource usage.

✱ Projects

CareerPilot – AI Career Guidance Platform

Full Stack / AI-ML

AI-powered platform with 85% job-match accuracy using NLP, the OpenAI API, and job scrapers from 10+ sites. Features resume/cover-letter generators, an ATS score checker, a job-role predictor, AI interview prep, and personalized dashboards for 200+ users.

Control & Operation of Renewable Energy

Full Stack / ML

Hackathon-winning ML project optimizing solar/wind energy using LSTM with 90% prediction accuracy. Flask backend on AWS reduced latency by 25% handling 50+ queries; interactive React/Streamlit dashboard used by 20+ operators.

* Achievements

Top Performer — NPTEL Python Course

NPTEL (All India Rank) · 2024

Recognized as a Top Performer in the NPTEL Python course with an All India Rank.

◆ **Top Performer**

Bihar Governor's Award — Rajya Puraskar

Scout/Guide Examination · 2022

Awarded the Bihar Governor's Award for exceptional performance in the Scout/Guide Rajya Puraskar Examination.

◆ **Governor's Award**

Ahouba 2.0 Hackathon

Ahouba Platform · 2024

Secured 3rd Rank at the Ahouba 2.0 Hackathon for a renewable-energy project, winning ₹30,000.

◆ **3rd Rank — ₹30,000 Prize**
